

Bubble Free Adhesive Film

Window cling films have just become a lot easier to install with the new bubble free window cling film. There are absolutely no bubbles to smooth out during or after installation saving time and money. The dot patterned adhesive allows air to escape through the pattern channels leaving no bubbles.

Bubble Free Cling is an ideal film for point-of-purchase advertising, signage, promotional items, decals and more. It can be removed and re-applied, removes cleanly and leaves no residue behind.
