

## **ADD3 - Floor Graphic Media**

### **No Over Laminate Needed**

Plastiprint's new AD3 floor graphic media is the ultimate, one-step solution for indoor floors and walls because there is no over laminate needed.

**Ideal for reducing the amount of material used while still getting the same results.**

The floor graphic media is an 8mil white, textured, matte vinyl with fabric backing and repositionable, solvent acrylic adhesive. It works on vinyl, plastics, tile, wood, metal & painted surfaces and is ideal for tradeshow and POP graphics.

**Slip resistant ASTM D-2047 & E-84 Class A certified for flame and smoke, which means that no lamination is required - just print and go!**

#### **Specifications:**

The floor graphic media will last up to 3 months on indoor floor applications, depending on the type of traffic. Indoor wall applications will last 24-36 months. NO need to laminate. Compatible with solvent, eco-solvent, latex and UV-cure inks. Minimum application temperature is 50F or 10C.

#### **Description:**
