

**2 Part Magnetic Receptive Graphic System** includes a mounting magnet with permanent adhesive or a 2 sided mounting magnet with a magnetic receptive paint that is applied to the intended surface and a printable magnetic receptive media that is affixed to mounting magnet. The printable media can be switched out and re-used many times over.

**Description:**

**Printable Magnetic Media:** 10mil Matte White Polyester, 16mil Matte White Vinyl, 12mil Matte White Polypropylene, 13mil Semi-Matte Paper or 10mil Dry-Erase Whiteboard

**Mounting Media:** 20 or 30mil high energy Mounting Magnet w/ Permanent Adhesive

**Mounting Media:** Magnetic Receptive Paint with Double-Sided Mounting Magnet

**2. Applications & Storage:**

- **Wall & Fixture Graphics**
- **Retail POP & POS Graphics**
- **Menu Boards & Directories**
- **Interior Design Decoration**

**Print Method:** UV Curable, Latex, Solvent, Eco-Solvent Digital Printers, Screen

**Working Condition:** ambient temperature and humidity

**Storage Condition:** store indoors in normal temperatures up to one year

**3. Specifications:**

Roll Length : 100 Ft.

Roll Widths : 48", 50", 54" and 60"

**3.2 Physical Data**

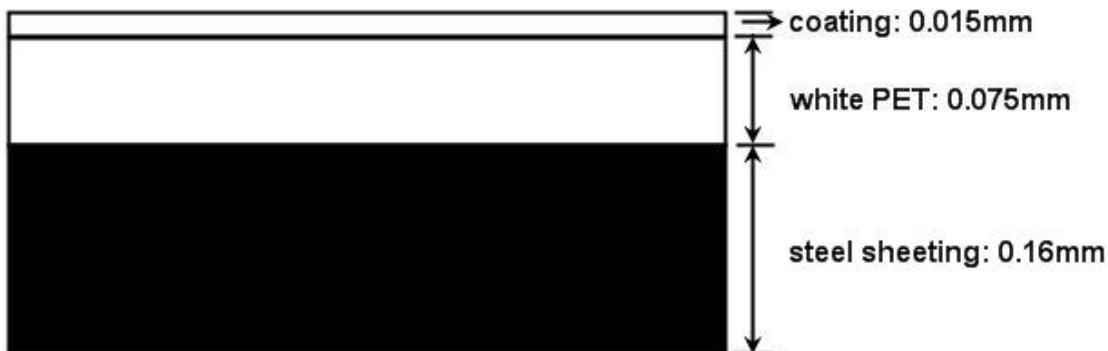

Thickness (mm)	Weight (g/m <sup>2</sup> )	Whiteness (Wb)	Brightness (Gs)	Tensile Strength (Mpa)	%
0.25±0.02	540±50	【85, 95】	【1, 5】	【40, 50】 【30, 40】	20,35】 【20,35】

**3.3 Magnetic Data**

Lifting Weight : ≥5.0 (g/cm<sup>2</sup>)

( 0.7MM : 40g/cm<sup>2</sup>)

Condition: the standard test tool is isotropic rubber magnet 0.7mm (Holding Strength is about 40g/cm<sup>2</sup>), test equipment is Tensile Strength Tester.
